 LinkedIn

 Hyderabad , Telangana

---

## OBJECTIVE

Motivated and detail-oriented developer with expertise in Python, Dart, Flutter, and MySQL. Strong in frontend technologies and UI such as HTML, CSS, Bootstrap & Canva, Adobe XD, Figma. Skilled in full-stack development. Driven to create innovative, efficient, and user-friendly solutions. Eager to collaborate with dynamic teams and contribute to meaningful projects.

## EDUCATION

Bachelor of Technology

Computer Science And Engineering

Miracle Educational Society Group of Institutions

2021 - 2025

CGPA: 7.55

Vizianagaram, Andhra Pradesh

## TECHNICAL SKILLS

- **Programming:** Python, Java, Dart
- **Web Technologies:** HTML, CSS, Bootstrap
- **Databases:** MySQL, MongoDB
- **Operating Systems:** Windows, Linux, MacOS
- **Tools & Platforms:** Jupyter Notebook, Visual Studio Code, Google Colab, Docker, Git
- **Additional Skills:** Ms Office Tools, Google Workspace Tools, WPS Office Tools, Canva, Figma, Adobe XD

## EXPERIENCE

FullStack Developer

March 2025 - Present

Threshing Floor Group

Threshing Floor Group (TFG) delivers innovative Website & App Development, IT Solutions, and Digital Marketing services. It craft powerful digital experiences that drive global business success.

- Contributed to the development of client-based web applications using Python, MySQL, HTML, CSS and Bootstrap
- Collaborated with cross-functional teams to deliver responsive and scalable web solutions
- Participated in both frontend and backend development to ensure seamless user experiences and robust functionality
- Assisted in debugging, testing, and optimizing applications for performance and reliability

Artificial Intelligence

Dec 2024 - Mar 2025

SkillDzire

SkillDzire is an online learning and internship platform that helps students gain industry-relevant skills through hands-on training and real-world projects.

- Gained hands-on experience in AI concepts such as machine learning, neural networks, and natural language processing.
- Worked on real-time datasets to build predictive models using Python libraries like Scikit-learn and TensorFlow.
- Developed and evaluated AI models for tasks such as classification, regression, and sentiment analysis.
- Collaborated with a team to complete a capstone project applying AI techniques to solve a practical problem.

## Testing Tools/ Selenium with Java & Python / API Testing

April 2024 - Aug 2024

### ExcelR Solutions

ExcelR helps individuals and organizations to excel by providing courses based on practical knowledge and theoretical concepts.

- Completed a hands-on internship in software testing, focusing on automation tools like Selenium with Java. Gained practical experience in designing and executing test cases for web applications.
- Enhanced debugging skills by identifying and resolving issues in test scripts. Collaborated with a team to ensure optimal test coverage and software quality. Developed a deeper understanding of agile methodologies and best practices in QA.
- Validated RESTful APIs using tools like Postman to test request/response cycles, status codes, and data accuracy.
- Performed functional and negative testing of APIs by verifying different HTTP methods (GET, POST, PUT, DELETE) and edge case scenarios.

## PROJECTS

### GroConnect powered by TFG

[www.groconnect.in](http://www.groconnect.in)

June 2025 - Present

- Responsive Frontend Development: Designed and implemented a user-friendly interface with HTML, CSS, JavaScript, and Bootstrap, ensuring cross-device compatibility and smooth navigation.
- Dynamic Web Functionality: Integrated interactive elements using JavaScript to enhance user engagement and streamline platform usability.
- Database Management with MongoDB: Developed scalable data storage solutions with MongoDB, enabling efficient handling of product listings, user data, and transaction records.
- Full-Stack Integration: Built a seamless connection between the frontend and backend to ensure real-time updates, fast performance, and a secure shopping experience for users.

### RSS Feed Reader

[RSS Feed Reader Web Application](#)

Dec 2024 - April 2025

- In today's fast-paced digital landscape, users are inundated with information from various online sources, making it challenging to stay updated on topics of interest.
- **RSS (Read Simple Syndication)** feeds provide a solution by allowing users to receive timely updates from their favourite websites in a consolidated format.
- The RSS Feed Reader is a full-stack web application developed using Java technologies that allows users to aggregate and manage content from multiple RSS feeds.
- This application provides a convenient way for users to stay updated on their preferred topics by consolidating diverse news sources into a single interface.

## INTERPERSONAL SKILLS

- Workflow Coordination
- Adaptability
- Perseverance
- Diligent
- Conscientious
- Expeditious
