# Yaswanth Jarajapu

Full-Stack Developer at Threshing Floor Group AI & IT Solutions  
Hyderabad, Telangana, India

## Summary

I am a Full Stack Developer with strong skills in Python, Dart, Flutter, MySQL, MongoDB, and frontend technologies such as HTML, CSS, Bootstrap, and JavaScript. I have practical experience in building responsive, scalable applications. I have worked on both web and mobile development projects, focusing on smooth functionality and user-friendly designs.

At Threshing Floor Group, I'm working on client-based web applications. This gives me hands-on experience in frontend, backend, and database management. I'm contributing to [www.groconnect.in](http://www.groconnect.in), a full-stack project powered by TFG. Here, I've created dynamic interfaces, set up MongoDB database solutions, and integrated real-time features to ensure a seamless shopping experience.

My interest in Artificial Intelligence and Software Testing led me to earn certifications and work on projects in Machine Learning, Neural Networks, Selenium with Java and Python, and API Testing. These experiences expanded my technical skills and improved my problem-solving abilities.

Outside of academics, I have shown leadership, communication, and coordination skills while participating in collaborative projects, internships, and organizational events. I am diligent, adaptable, and passionate about creating innovative, efficient, and impactful solutions in technology.

## Key Skills:

- ✓ Full Stack Development – Python, Dart, Flutter, MySQL, MongoDB
- ✓ Frontend – HTML, CSS, Bootstrap, JavaScript
- ✓ Tools – Git, Docker, VS Code, Jupyter Notebook, Google Colab
- ✓ Interests – Artificial Intelligence, Data Warehousing, Data Mining, Blockchain Technology

I am eager to connect with like-minded professionals, work on innovative projects, and support organizations that rely on technology-driven solutions.

## Experience

Threshing Floor Group

Full Stack Developer

March 2025 - Present (10 months)

Hyderabad, Telangana, India

As a Full Stack Developer at TFG in Hyderabad, my days involve building websites and applications from start to finish. The work atmosphere here is supportive and collaborative, with everyone working together on interesting projects. We tackle diverse challenges, creating solutions that impact users directly. It's a great place to learn and grow in the tech field.
